FileZilla Setup on next Page.

## **Setup FileZilla for SFTP**

- 1- Launch FileZilla Client.
- 2- Go to File > Site Manager... You will see the following Dialog box.

Enter the Information above for your store login.

- 1- Click New Site button
- 2- Enter your Site name (any name you want)
- 3- Enter HOST
- 4- Enter Port 22 (To get secure connection) for Wisconsin Port 21
- 5- Select Protocol as shown in image above (this is for Leadsonline)
- 6- Enter User Name
- 7- Enter Password
- 6 – Click OK

Now you are set to quick launch to sftp.

To quickly connect without entering the user and password click  under the File and select the Site you want to connect to.

Good Luck!
